

## # EC2 Apache/Nginx Setup on AWS

### ## Description

This project demonstrates how to launch an EC2 instance and configure a basic Apache or Nginx web server.

### ## AWS Services Used

- Amazon EC2
- Security Groups
- IAM Roles

### ## Instructions

1. Launch EC2 using Amazon Linux 2
2. Add user-data script to install Apache or Nginx
3. Configure security group to allow port 80
4. Access homepage via public IP
